

PODS IV, 2006

| Last Name | First Name | Thesis Title | University Awarding Degree | Country |
|------------------|-------------------|--|-----------------------------------|-----------------|
| Barreiro | Andrea | Wave-driven vortex dynamics in the near-shore region | New York University | USA |
| Bates | Susan | The role of the annual cycle in coupled ocean-atmosphere variability in the tropical | George Mason University | USA |
| Bernier | Natacha | Annual and Seasonal Extreme Sea Levels in the Northwest Atlantic: Hindcasts Over the | Dalhousie University Halifax NS | CAN |
| Brambilla | Elena | Lagrangian Analysis Of The Upper Limb Of The North | ICSD | USA |
| Chavanne | Cedric | Ocean Circulation Features in Mountainous Islands | University of Hawaii | USA |
| Chhak | Kettyah | Stochastic Forcing of the Wind-Driven Ocean Circulation | University of Colorado, Boulder | USA |
| Dawe | Jordan | Aspects of modeling the North Pacific Ocean | University of Washington | USA |
| Dottori | Marcelo | Interannual flow along the western coast of the united States and Canada | Florida State University | USA |
| Durland | Ted | Transmission of Equatorial Waves Through a Strait | University if Hawaii | USA |
| Elipot | Shane | Spectral Characterization of Ekman Velocities in the Southern Ocean Based on | SIO/UCSD | USA |
| Gay | Peter | Salt Transport in Partially Mixed Estuaries | University of Connecticut | USA |
| Ham | David | An unstructured mesh C-grid coastal ocean model | Delft University of Technology | The Netherlands |
| Hodges | Benjamin | The distribution of oceanic chlorophyll | UCSD | USA |
| Kida | Shinichiro | Overflows and Upper Ocean Interaction: A mechanism for the Azores Current | MIT/WHOI | USA |
| Kleiss | Jessica | Airborne measurement of surface breaking wave evolution | UCSD | USA |

PODS IV, 2006

| Last Name | First Name | Thesis Title | University Awarding Degree | Country |
|------------------|-------------------|--|-----------------------------------|----------------|
| Lenn | Yueng-Djern | Observations of Antarctic Circumpolar Current Dynamics in Drake Passage and | UCSD | USA |
| Leonov | Dmitri | Effects Of Finite Amplitude Bottom Topography On | Florida State University | USA |
| Marzelon | Ben | The Influence of Vertical Mixing on the Stability of the Atlantic Meridional | University of Bergen | Norway |
| Palter | Jaime | On the horizontal advection and biogeochemical impacts of North | Duke University | USA |
| Perez | Renellys | Numerical and Assimilative Studies of the Equatorial Pacific Cold Tongue | Oregon State University | USA |
| Rosman | Johanna | The Effects of a Kelp Forest (<i>Macrocystis pyrifera</i>) on Currents, Waves, and | Stanford University | USA |
| Thompson | Andrew | Eddy fluxes in baroclinic turbulence | UCSD/SIO | USA |
| Venayagamoorthy | Subhas | Dynamics and energetics of highly nonlinear i | Stanford University | USA |
| Vernieres | Guillaume | Modeling Studies of Ocean Circulation | Oregon State University | USA |
| Xu | Xiaobiao | Outflow representation in HYCOM | Univ. of Miami | USA |
